DISCUSSION AND ANALYSIS

Background

The territory proposed for annexation to SFWPA consists of a 6.36-acre parcel and a portion of the Foothill Boulevard right-of-way (approximately 0.3-acre area). The territory is undeveloped and consists of a cleared area that may have been utilized in the past for livestock grazing. Surrounding parcels range in size from 1.25 to 37 acres. Land uses on surrounding parcels are single-family dwellings and orchards.

The territory fronts on Foothill Boulevard, which is a public road maintained by Butte County. Foothill Boulevard is not improved with curb, gutter, or sidewalk.

The territory is designated by the Butte County General Plan as Rural Residential and is zoned RR-5 (Rural Residential, 5-acre minimum parcel sized) by Butte County.

Annexation

Individual Factors for Consideration

Government Code Section 56668 identifies a number of factors that are to be considered by LAFCO in reviewing a proposal. The factors are intended to provide the Commission with information about certain topics that are often relevant to annexations. No single factor is determinative. An evaluation of these factors as it relates to the proposed boundary change follows.

(a) Population; land use; topography; proximity to other populated areas; the likelihood of significant growth in the area.

The territory is undeveloped and it appears to have been utilized for livestock grazing. The territory is zoned RR-5 and is designated as Rural Residential by the Butte County General Plan, which allow for one dwelling unit per five acres. With one dwelling unit on the subject parcel, the territory has a population of approximately three people. Land use on surrounding and nearby parcels is single-family dwellings and orchards on parcels that range in size from 1.25 to 37-acre parcels. Based upon the existing zoning, the territory could only be developed with a primary dwelling unit and a second dwelling unit.

The site and surrounding area have no significant natural features that would adversely affect the annexation.

- (b) The need for organized community services; probable effect of the proposed annexation on the cost and adequacy of services and controls in the area and adjacent areas.**

The need for organized community services in the annexation area is to support residential and agricultural development consistent with the Butte County General Plan.

- (c) The effect of the proposed action and of alternative actions.**

The proposed annexation will not have any effect on land uses in the area.

- (d) The conformity of the proposal with the adopted commission policies on providing planned, orderly, efficient patterns of urban development.**

The proposed boundary change is consistent with existing service delivery patterns and development in adjacent areas and facilitates efficient provision of domestic water and irrigation water services by SFWPA.

- (e) The effect of the proposal on agricultural lands.**

The territory and all of the surrounding parcels are designated by Butte County for rural residential uses. No agricultural uses are located on the territory, but it appears that the territory may have been utilized for livestock grazing. Large orchards are found on several of the surrounding parcels. Extension of public irrigation water service to the subject territory would facilitate development of the territory with an agricultural use and the proposed annexation would not contribute to the loss of agricultural lands.

- (f) Boundaries of the territory.**

The subject territory is parcel specific, with definite and certain boundaries. There are no conflicts with lines of assessment or ownership. The subject territory is legally uninhabited with less than 12 registered voters.

- (g) A regional transportation plan adopted pursuant to Section 65080.**

The proposed annexation does not conflict with any regional transportation plan.

- (h) Consistency with city or county general and specific plans.**

The annexation of the subject territory is consistent with the Butte County General Plan 2030, which designates the territory for very rural residential uses.

- (i) The sphere of influence of any local agency which may be applicable to the proposal being reviewed.**

The territory has long been within the Sphere of Influence for the South Feather Water and Power Agency. The annexation proposal does not conflict with the Sphere of Influence of any agency.

(j) The comments of any affected local agency.

On January 8, 2015, LAFCo staff circulated copies of the application materials for review and comment from local public agencies. No substantive comments were received from an affected local agency during the review of this proposal.

(k) The ability of the receiving entity to provide the services.

SFWPA, through its resolution of application, attests to its ability to extend domestic water and irrigation water services to the parcel proposed for annexation without impact to existing SFWPA customers. As shown in the Domestic Water and Wastewater Service Providers Municipal Service Review, SFWPA's 2010 Urban Water Management Plan, and SFWPA's Initial Study and Mitigated Negative Declaration for the Miners Ranch Water Treatment Plant Improvement Project, SFWPA has adequate water rights and adequate water treatment, storage, and conveyance capacity to provide service to the territory.

(l) Availability of adequate water supplies.

As shown in the Domestic Water and Wastewater Service Providers Municipal Service Review, SFWPA's 2010 Urban Water Management Plan, and SFWPA's Initial Study and Mitigated Negative Declaration for the Miners Ranch Water Treatment Plant Improvement Project, the South Feather Water and Power Agency has adequate water rights to provide domestic water service to the territory. No significant changes in water demand are anticipated as the result of this annexation.

(m) The extent to which the proposal will affect a city or cities and the county in achieving their respective fair shares of the regional housing needs.

The territory is undeveloped. The annexation would facilitate the development of the territory with a dwelling and would help Butte County in achieving its regional housing needs allocation.

(n) Any information or comments from the landowner or owners, voters, or residents of the affected territory.

No information or comments were offered.

(o) Any information relating to existing land use designations.

The territory is zoned RR-5 (Rural Residential, 5-acre minimum parcel size) by Butte County, with a General Plan land use designation of Rural Residential. The proposal is consistent with the County's General Plan and zoning.

(p) The extent to which the proposal will promote environmental justice.

The proposed annexation is not expected to promote or discourage the fair treatment of minority or economically disadvantaged groups.

Applicable Butte LAFCo Policies

Section 2.0 (LAFCo General Policies and Standards) and Section 4.0 (Annexation and Detachments) of Butte LAFCo Policies and Procedures provides the Commission with general

standards for annexation proposals. The relevant policies for consideration and guidance for this proposal include:

- Consistency of the proposal with the General Plan of the applicable planning jurisdiction. (2.10.1)
- The creation of logical boundaries and the elimination of previously existing island or other illogical boundaries. (2.11.2)
- That a need for service exists and whether a lack of the service creates a demonstrated threat to the public health and safety. (2.14.1)
- Consistency of a proposal with the Sphere of Influence and Municipal Service Review of the affected jurisdiction(s). (4.1.1)
- Denying an annexation if it will result in the creation of islands of incorporated or unincorporated territory or otherwise cause or further the distortion of existing boundaries. (4.1.6)
- Determination of the most efficient service provider. (4.2)

The proposal is substantially consistent with the above policies in that:

- It will further consolidate the service boundaries of SFWPA, resulting in more logical and efficient jurisdictional boundaries;
- Will provide a secure source of treated domestic water and untreated irrigation water to the territory being annexed;
- SFWPA has adequate water rights and facilities to provide service to the territory;
- SFWPA is the only domestic water and irrigation water service provider in the area.

ADDITIONAL BACKGROUND

Property Tax Agreement

In accordance with provisions of Revenue and Taxation Code § 99, a Master Property Tax Exchange Agreement exists between the South Feather Water and Power Agency and the County of Butte, which was signed on July 23, 1996. In accordance with the Master Property Tax Exchange Agreement, the proposed change of organization will be revenue neutral to all affected agencies.

Public Agency Comments

LAFCo staff referred the proposed annexation proposal to interested and affected agencies and districts for review and comment. No substantive comments were received from an affected local agency during the review of this proposal.

Support/Protest and Conducting Authority Proceedings

The South Feather Water and Power Agency Board of Directors conducted a public hearing on February 24, 2015, at which time the annexation proposal was initiated by Resolution No. 15-2-01. There are less than twelve registered voters in the territory, which makes the territory uninhabited pursuant to Government Code §56046, which requires twelve or more registered voters to live within the proposal area before it can be considered inhabited. The annexation has the support of the landowners.

As this proposal has 100% consent of the affected landowners, pursuant to Government Code §56663, the Commission may waive the protest proceedings if the following conditions are met:

the subject area is uninhabited; all owners have given their consent; and no affected agencies have submitted written opposition to a waiver of protest proceedings. This annexation proposal meets the above conditions for a waiver of the protest proceedings, and therefore, approval by this Commission will be the final action required for annexation.

Environmental Analysis

The South Feather Water and Power Agency is the lead agency for the proposal under the California Environmental Quality Act (CEQA). SFWPA found the proposal to be Categorical Exempt from CEQA pursuant to Section 15319 – Annexations of Existing Facilities and Lots for Exempt Facilities. The South Feather Water and Power Agency prepared a Notice of Exemption for this proposal, which is inserted as **Exhibit “C”** of this report. Staff concurs with the Agency’s use of the Section 15319(a) exemption.

CONCLUSION

The South Feather Water and Power Agency is capable of providing domestic water and irrigation water services to the territory without affecting service levels provided to current district customers. Annexation of this area represents a logical extension of the Agency’s boundaries and services, and it will have no adverse impacts on any other agency’s ability to provide services. The annexation proposal substantially conforms to LAFCo policy and the Executive Officer recommends approval of this proposal.

ALTERNATIVES FOR COMMISSION ACTION
